EDUCATION

VIT Bhopal University

Bachelor's of Technology; CGPA: 7.96

Bhopal , India

October 2022 - Present

SKILLS SUMMARY

- **Languages:** Python, Java, SQL
 - **Tools:** Excel, PowerPoint, Git, GitHub
 - **Platforms:** PyCharm, Visual Studio Code, Jupyter Notebook
 - **Soft Skills:** Communication skills, People Management, Problem-Solving Skills
-

WORK EXPERIENCE

Software Developer Intern at Sagacity Softwares

February 25 - April 25

- I worked closely with a skilled team to design, develop, and maintain software solutions, fostering a collaborative and productive work environment.
 - I gained practical experience in coding, debugging, and implementing software features, contributing to the delivery of high-quality projects.
 - Improved problem-solving abilities and technical expertise by working on real-world software development challenges and workflows
-

PROJECTS

Content Management System

- Designed and developed a full-stack CMS using React for the front-end, Node.js for the back-end, and MongoDB for database management.
- Enabled users to create, manage, and publish content seamlessly with an intuitive interface and robust functionality.

Event Management System

- Developed an Event Management System using React, Node.js, MongoDB, and PostgreSQL for event creation, ticket sales, and attendee tracking.
- Core Features:
 1. Admins: Manage events, tickets, and registrations.
 2. Users: Discover events, register, and receive real-time updates.

Spell Checker Project

- Built a Python-based spell checker using Trie for dictionary storage and Levenshtein Distance for word suggestions.
 - Features: Misspelled word detection, correction suggestions, and efficient dictionary lookup.
-

CERTIFICATES

Postman API Fundamentals Student Expert | [CERTIFICATE](#)

- Earned the Postman API Fundamentals Student Expert certification, demonstrating proficiency in API testing and development using Postman.
- Learned API request handling, automated testing, and API documentation, enhancing my ability to design and debug APIs effectively.

The Bits and Bytes of Computer Networking | [CERTIFICATE](#)

- Completed The Bits and Bytes of Computer Networking on Coursera, covering networking fundamentals, protocols, and infrastructure.
- Learned IP addressing, DNS, cloud computing, and network troubleshooting, enhancing my understanding of modern networking systems.
